80-65312

80-65412

Adding to our Social Responsibility

Consistent with our Brands, AAkron is focused on protecting the environment. Here's the many ways canned water contributes to our existing efforts.

Aluminum is more efficient to recycle than single use plastic due to its high scrap value.

Aluminum is non-toxic & does not leach out any chemicals during the recycling process.

Decorating via labels vs. ink is better for the recycling process.
