- Manufactured with an Antimicrobial additive which fights bacteria growth on the product's surface.
- Additive neutralizes over 99% of active bacteria on product's surface.
- Additive doesn't wear off and remains effective for the life of the product

**FIGHTING BACTERIAL GROWTH ON PRODUCTS ALL DAY. EVERY DAY!**

*Featuring an antimicrobial additive molded in the plastic*

MicroHalt™ products each have an EPA registered antimicrobial agent incorporated into the plastic that protects the item itself by suppressing growth of bacteria. The EPA master label for the registered additive states that the antimicrobial agent is approved for inclusion into the polymers from which the products are manufactured for protection of those products themselves. The antimicrobial properties do not protect users or others against bacteria, viruses, germs or other disease organisms. For more information on U.S. regulations on antimicrobial agents and treated products, visit [www.epa.gov](http://www.epa.gov)
