

Varnish FINISH

What is Varnish Finish?

The process offers a lustrous transparent layer of varnish (gloss coating) applied to your imprint. Choose from a variety of options, cover the entire Full Color Digital imprint, choose to highlight selected areas with the finish to make them stand out, or print all or portions of your imprint in varnish only.

Varnish The Entire Logo

- Full Color Digital printing with full coverage Varnish finish applied overtop
- Available on one side, two side, or full wrap

Spot Varnish to Highlight Specific Areas

- Varnish finish will be applied to certain areas of the imprint
- Simply indicate the areas that require Varnish finish
- Spot areas can be with Full Color Digital with Varnish or just Varnish only

Varnish Only

- Print in Varnish only creates a classic tone on tone look
- Dark item colors recommended, logo restrictions may apply
- Varnish only on a glass bottle changes the frost finish to clear, creating a see-through effect

Set-Up Charge: \$65.00 (G)

Re-orders will have a \$25.00 (G) set-up charge.
